Allowable Subject Matter

1. Claims 1-35 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant's claimed invention is deemed allowable over the prior art as the prior art fails to teach or fairly suggest a data processor for determining jitter associated with a signal as a function of sample values provided by plural samplers having respective signal inputs and strobe inputs in which circuitry couples the signal to the plural signal inputs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Patent 5,631,553 to Bose et al. discloses an RF/microwave amplitude and phase measurement system that includes plural sampling gates with respective signal inputs and strobe inputs (Fig. 1). The reference is silent about coupling a (single) signal to the plural inputs and implies multiple signals (col. 4, lines 65 and 66). The reference discloses that the total jitter of the system is a particular value (col. 9, lines 29 and 30),

Art Unit: 2857

but does not teach determining jitter associated with the input signal as a function of sample values provide by the plural sampling gates.

US Patent 6,242,899 B1 to Miller discloses a waveform translator and includes a discussion in the Background of the Invention with respect to the patent to Bose et al. addressed above.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Gutierrez whose telephone number is (571) 272-2215. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marc Hoff can be reached on (571) 272-2216. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
